

B GREEN INNOVATIONS, INC. “VibeAway” Receives Great Review: Listed on “Green Gear” Website: <http://blog.greengear.info/>.

**B Green’s “VibeAway” (designed to stop Washing machines
from vibrating and walking), “VibeAway” Made from 100%
Recycled Tires**

“Recycling the planet one Tire at a time.”

MATAWAN, N.J.--(BUSINESS WIRE) - March 12, 2009- I GREEN INNOVATIONS, Inc. (OTC Bulletin Board: IVOT) announced today its wholly owned subsidiary B Green Innovations, Inc. “VibeAway” product has been reviewed and listed at <http://blog.greengear.info/>.

The review titled “Vibe Away Washing Machine Anti-Vibration Pads Review” and can be seen at the link below including video of the product review.

<http://blog.greengear.info/2009/03/vibe-away-washing-machine-anti-vibration-pads-review/>

Green Gear is a website devoted to reviewing Environmentally Friendly products for the home. We try to differentiate our reviews by looking at products practically, as most consumers will, and provide reviews that are honest, down to earth, and useful. Most of our reviews will include a video, candid photo, and quick write up. We also offer up commentary on environmental issues of the day.

The green benefits for the vibe away pad are both fixed and variable. First, the pads are made from 100% recycled tires. [We’ve reviewed a couple of other products made from tires](#) before and seen varying degrees of quality. I can say that the people who made the other products, boot trays in this case, could learn something from the vibe away. It is as strong and sturdy as a hockey puck and about the same size too. In addition to being made of recycled content, the pads absorb vibration and allow your washer to run more efficiently, so every time you use them you are extending the life of your washer and getting more use out of the resources it took to create it.

Abut Mr. & Mrs. Green Gear:

We live and work in Columbus, Ohio. Mrs. Green Gear works in the public sector and Mr. Green Gear works for the man. We met at The College of Wooster where Mr. Green Gear studied economics and Mrs. Green Gear majored in history. Mr. Green Gear also has an MBA from Ohio State. We enjoy all sorts of hobbies, Mr. Green Gear can barely keep track of them all, but a few are painting, camping, hunting, photography, writing, beer brewing, shooting (pistol and rifle), and reading. We enjoy politics, history, and the arts.

We'd love to hear from you so email us at ask@greengear.info or submit comments to our blog!

About B Green Innovations:

B Green Innovations, Inc. ("B Green") a Matawan, New Jersey-based Corporation is dedicated to becoming a "green" technology company, focused on acquiring and identifying promising technologies that address environmental issues. The first technology will be used to create new products from recycled tire rubber. Recently, we announced that we had filed a new Patent Application for a process it described as "paver blocks and patio blocks made from recycled tire crumb rubber". B Green Innovations, Inc. has also filed 3 additional patents on products made using 100% recycled tires.

Certain information included in this press release, may contain forward-looking statements about our current and expected performance trends, growth plans, business goals and other matters. These statements may be contained in our filings with the Securities and Exchange Commission, in our press releases, in other written communications, and in oral statements made by or with the approval of one of our authorized officers. Information set forth in this press release contains various "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. The Private Securities Litigation Reform Act of 1995 (the "Act") provides certain "safe harbor" provisions for forward-looking statements. The reader is cautioned that such forward-looking statements are based on information available at the time and/or management's good faith belief with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in the statements. Forward-looking statements speak only as of the date the statement was made. We assume no obligation to update forward-looking information to reflect actual results, changes in assumptions or changes in other factors affecting forward-looking information. Forward-looking statements are typically identified by the use of terms such as "anticipate," "believe," "could," "estimate," "expect," "intend," "may," "might," "plan," "predict," "project," "should," "will," and similar words, although some forward-looking statements are expressed differently. Although we believe that the expectations reflected in such forward-looking statements are reasonable, we can give no assurance that such expectations will prove to be correct.
